"AT EASE IN YOUR CONSTRUCTION SITE"

Ritmo meets all your welding needs in your jobsite

The information and photos in this publication are not binding and RITMO S.P.A. is free to make any alterations without prior notice.

DVANTAGE RITMO

RITMO WORLDWIDE

Ritmo has professional distributors and resellers all over the world. Our staff is ready to assist you in English, Spanish, French, German, Arab, Italian, Russian and Portuguese.

TRAINING

From many years now, we have decided that the best way to grant a client/ distributor a perfect knowledge of our products is to invest in custom training, in our own premises. These courses are aimed to teach how to operate the products in the best way, and how to supply the "first aid" when necessary.

PRESALES TECHNICAL ASSISTANCE

When a client or a potential client wants to buy us a product, it is our standard procedure to help find the best solution to its needs.

GLOBAL ADVICE

In such a technical field as ours, the customer requires the best assistance. Thanks to the experience developed along the years, and to the co-operation with several manufacturers, institutions, schools and training institutes, RITMO is able to give the most comprehensive advice to no matter which related issue. Our company is a long-time member of a UNIPLAST's (UNI-Italian National Plastics Standards Body) working group dedicated to the study and draw up of new standards within our field. The importance of this group is linked to the fact that the expansion of the plastic welding field ought to be followed by a crescent sensitivity for safety issues, so to have a sustainable and continuous growth. The working group prepares draws, hence present them to the UNI to be discussed and eventually transformed into new standards.

AFTER SALES TECHNICAL ASSISTANCE

Ritmo's Service Centre can solve all kind of technical issues, as well as overhaul our machines. Ritmo has other Service Centres abroad, linked to its official distributors.

STARTING AND TESTING

RITMO' technicians are prepared to make the starting and testing of workshop machines at the client' own premises, so that the fittings production can start almost immediately.

ALFA 1000

watch the video

CNC workshop welding machine designed to fabricate fittings like elbows, wyes, tees and crosses. The jaws movements are electro-hydraulically operated, both the open/close movement and the blocking mechanism.

Composed of:

- A machine body with two hydraulically controlled carriages.
- A control panel that features the CNC system, thanks to this would eliminate any risk of error due to the operator. The CNC incorporates a datalogging that can store up to 4000 cycles. It is possible to download the PDF report via USB slot; possibility to pre-set 20 customized.
- A Teflon-coated heating plate with electrical movement (in/out) on spherical bearings guides.
- A milling cutter with electrical movement (in/out) on spherical bearings guides, operated by an electrical engine.
- An upper cylinder, to be positioned on the jaws, for welding extra thick pipes and/or whenever it is necessary to apply high pressures.

STANDARD COMPOSITION

- Welding machine complete with control panel
- Heating plate, milling cutter
- Upper cylinder and tool kit
- Elbows jaws complete with inserts from Ø 355 to Ø 900 mm

ON REQUEST

- Wyes jaws Ø 800 complete with inserts from Ø 355 to Ø 710 mm
- Tees/crosses jaws Ø 800 complete with inserts from Ø 355 to 710 mm

TECHNICAL FEATURES

| Materials | HDPE, PP For other materials contact RITMO S.P.A. |
|---------------------------|---|
| Power supply | 400 V 3F+N+PE 50/60 HZ |
| Total absorbed power | 38000 W |
| Working temperature | 180° ÷ 280° C (356° ÷ 536° F) |
| Outside temperature range | up to 40° C (104° F) |
| Angle reading sensivity | ± 1° |
| Dimensions | 2980 x 4560 x 3060 mm 117.3" x 179.5" x 120.4" |
| Weight | 3130 Kg (6900 lb) |

Elbows 355 ÷ 1000 mm 0° ÷ 60°

Wyes 355 ÷ 800 mm 45° ÷ 60°

Tees/Crosses 355 ÷ 800 mm
